Net income for the three months ended June 30, 2020 was $\$ 24.7$ million, or $\$ 0.56$ per diluted common share. Net income was up $\$ 14.3$ million from the previous quarter primarily due to lower loan loss provision and lower noninterest expense and down $\$ 5.8$ million from the second quarter of 2019 primarily due to higher provision for loan losses related to the deterioration of economic conditions caused by the COVID-19 pandemic. Excluding real estate repositioning charges of $\$ 0.7$ million, net income and earnings per diluted share were $\$ 25.2$ million and $\$ 0.57$, respectively.

Pre-provision net revenue ("PPNR") ${ }^{1}$ for the second quarter of 2020 was $\$ 50.7$ million compared to $\$ 44.9$ million in the previous quarter and $\$ 47.2$ million in the second quarter of 2019 reflecting higher net interest income and lower noninterest expense than the previous quarter.

## Net Interest Income and Net Interest Margin

The net impact of PPP loans and excess liquidity, both of which the Company expects to be transitory, negatively impacted the NIM by 7 bps. - Earning asset yields for the three months ended June 30, 2020 were down 39 bps from the prior quarter and down 60 bps from the same quarter in the prior year. Earning assets grew $\$ 742.8$ million or $8.4 \%$ from the prior quarter and grew $\$ 823.4$ million or $9.4 \%$ from the same quarter in the prior year.

- Provision expense for the three months ended June 30, 2020 was $\$ 18.8$ million as the economic deterioration due to COVID-19 and the related impact to expected losses continued in the second quarter while net charge-offs of $\$ 5.3$ million were relatively consistent with the prior quarter. Provision expense decreased $\$ 10.8$ million from the first quarter of 2020 and increased $\$ 11.6$ million from the second quarter of 2019.
- The allowance for loan losses was $\$ 113.5$ million or $1.49 \%$ ( $1.59 \%$ excluding PPP loans and related allowance) of total loans compared to $1.38 \%$ at March 31, 2020 and $1.04 \%$ June 30, 2019.

## Noninterest Income

- Total noninterest income, excluding securities gains (losses), was $\$ 34.8$ million for the three months ended June 30, 2020, down $\$ 1.4$ million from the prior quarter and up $\$ 0.5$ million from the prior year quarter.
- Service charges on deposit accounts were lower than both prior quarter and the second quarter of 2019 due to lower overdraft charges during the COVID-19 pandemic.
- Retirement plan administration fees were higher than both prior quarter and the second quarter of 2019 due to the April 1, 2020 acquisition of Alliance Benefit Group of Illinois, Inc. ("ABG") contributing $\$ 1.8$ million in revenues during the quarter.
- Wealth management fees were down $\$ 0.5$ million due to market conditions, partly offset by $\$ 0.3$ million in $A B G$ fees during the quarter.
- Insurance revenues were down compared to the prior quarter due to seasonally higher insurance revenues in the first quarter.
- The increase in other noninterest income from the prior year second quarter was driven by higher swap fees.

## Noninterest Expense

- Total noninterest expense for the second quarter of 2020 was down $7.8 \%$ from the previous quarter and down $1.3 \%$ from the second quarter of 2019.
- Significant variances to the prior quarter:
- Salaries and benefits declined due to decreased medical expenses during the COVID-19 pandemic (\$1.1 million) and lower stock-based compensation expenses ( $\$ 1.0$ million), partly offset by increased salaries due to the ABG acquisition (\$0.9 million).
- Occupancy expense was $\$ 0.9$ million lower due to seasonal maintenance in the prior quarter and lower expenses during the COVID-19 pandemic due to limited on-site personnel.
- Professional fees and outside services were down $\$ 0.5$ million primarily due to the timing of expenses as a result of the COVID-19 pandemic.
- FDIC expense was higher as the remaining portion of the FDIC insurance assessment small bank credit was used in the first quarter of 2020.
- Other noninterest expense was lower in the second quarter of 2020 due primarily to a $\$ 2.0$ million expense in the first quarter for the allowance for unfunded loan commitments, along with lower travel and training expenses during the pandemic. The Company recorded a $\$ 0.2$ million provision credit in the second quarter of 2020 to reduce the reserve for unfunded commitments.
- Other noninterest expense included $\$ 0.7$ million in non-recurring real estate repositioning charges for the second quarter.
- Significant variances to the second quarter of 2019:
- Higher salaries and benefits primarily driven by the ABG acquisition partly offset by lower medical costs (\$0.6 million).
- Data processing and communication expense down due to lower transaction volumes as a result of the COVID-19 pandemic.
- Other expenses decreased $\$ 0.7$ million due to lower travel and training expenses during the pandemic and lower pension costs.

## Income Taxes

- Effective tax rate was $21.0 \%$ for the second quarter of 2020 compared to $14.2 \%$ in the first quarter of 2020 and $22.4 \%$ in the second quarter 2019. The higher effective tax rate compared to the first quarter of 2020 was due to higher level of taxable income relative to total income and included a true-up of tax expense to bring the full year estimated effective tax rate to $19.5 \%$. The lower effective tax rate compared to the second quarter of 2019 was due to a lower level of taxable income relative to total income.

## Capital

## Forward-Looking Statements

This news release contains forward-looking statements, as defined in the Private Securities Litigation Reform Act of 1995. These statements may be
identified by the use of phrases such as "anticipate," "believe," "expect," "forecasts," "projects," "will," "can," "would," "should," "could," "may," or other similar terms. There are a number of factors, many of which are beyond the Company's control that could cause actual results to differ materially from those contemplated by the forward-looking statements. Factors that may cause actual results to differ materially from those contemplated by such forward-looking statements include, among others, the following possibilities: (1) local, regional, national and international economic conditions and the impact they may have on the Company and its customers and the Company's assessment of that impact; (2) changes in the level of nonperforming assets and charge-offs; (3) changes in estimates of future reserve requirements based upon the periodic review thereof under relevant regulatory and accounting requirements; (4) the effects of and changes in trade and monetary and fiscal policies and laws, including the interest rate policies of the Federal Reserve Board ("FRB"); (5) inflation, interest rate, securities market and monetary fluctuations; (6) political instability; (7) acts of war or terrorism; (8) the timely development and acceptance of new products and services and perceived overall value of these products and services by users; (9) changes in consumer spending, borrowings and savings habits; (10) changes in the financial performance and/or condition of the Company's borrowers; (11) technological changes; (12) acquisitions and integration of acquired businesses; (13) the ability to increase market share and control expenses; (14) changes in the competitive environment among financial holding companies; (15) the effect of changes in laws and regulations (including laws and regulations concerning taxes, banking, securities and insurance) with which the Company and its subsidiaries must comply, including those under the Dodd-Frank Act, Economic Growth, Regulatory Relief, Consumer Protection Act of 2018, Coronavirus Aid, Relief and Economic Security Act ("CARES Act"), and regulatory pronouncements around CARES Act; (16) the effect of changes in accounting policies and practices, as may be adopted by the regulatory agencies, as well as the Public Company Accounting Oversight Board, the Financial Accounting Standards Board ("FASB") and other accounting standard setters; (17) changes in the Company's organization, compensation and benefit plans; (18) the costs and effects of legal and regulatory developments including the resolution of legal proceedings or regulatory or other governmental inquiries and the results of regulatory examinations or reviews; (19) greater than expected costs or difficulties related to the integration of new products and lines of business; (20) the adverse impact on the U.S. economy, including the markets in which we operate, of the novel coronavirus, which causes the Coronavirus disease 2019 ("COVID-19"), global pandemic; (21) the impact of a slowing U.S. economy and increased unemployment on the performance of our loan portfolio, the market value of our investment securities, the availability of sources of funding and the demand for our products; and (22) the Company's success at managing the risks involved in the foregoing items.

Currently, one of the most significant factors that could cause actual outcomes to differ materially from the Company's forward-looking statements is the potential adverse effect of the current COVID-19 pandemic on the financial condition, results of operations, cash flows and performance of the Company, its customers and the global economy and financial markets. The extent to which the COVID-19 pandemic impacts the Company will depend on future developments, which are highly uncertain and cannot be predicted with confidence, including the scope, severity and duration of the pandemic and its impact on the Company's customers and demand for financial services, the actions governments, businesses and individuals take in response to the pandemic, the impact of the COVID-19 pandemic and actions taken in response to the pandemic on global and regional economies, national and local economic activity, and the pace of recovery when the COVID-19 pandemic subsides, among others. Moreover, investors are cautioned to interpret many of the risks identified under the section entitled "Risk Factors" in our Form 10-K for the year ended December 31, 2019 and in our Form 10-Q for the quarter ended March 31, 2020 as being heightened as a result of the ongoing and numerous adverse impacts of the COVID-19 pandemic. You should not place undue reliance on any forward-looking statements, which speak only as of the date made, and you are advised that various factors including, but not limited to, those described above and other factors discussed in the Company's annual and quarterly reports previously filed with the SEC, could affect the Company's financial performance and could cause the Company's actual results or circumstances for future periods to differ materially from those anticipated or projected. Unless required by law, the Company does not undertake, and specifically disclaims any obligations to, publicly release any revisions that may be made to any forward-looking statements to reflect the occurrence of anticipated or unanticipated events or circumstances after the date of such statements.
