## NBT Bancorp Inc. Announces Third Quarter Net Income of \$35.1 Million, or \$0.80 Per Diluted Common Share; Announces Dividend

October 26, 2020
NORWICH, N.Y., Oct. 26, 2020 (GLOBE NEWSWIRE) -- NBT Bancorp Inc. ("NBT" or the "Company") (NASDAQ: NBTB) reported net income and diluted earnings per share for both the three and nine months ended September 30, 2020.

Net income for the three months ended September 30 , 2020 was $\$ 35.1$ million, or $\$ 0.80$ per diluted common share. Net income was up $\$ 10.4$ million from the previous quarter primarily due to lower loan loss provision and up $\$ 2.7$ million from the third quarter of 2019.

Pre-provision net revenue ("PPNR") ${ }^{1}$ for the third quarter of 2020 was $\$ 49.6$ million compared to $\$ 50.7$ million in the previous quarter and $\$ 48.2$ million in the third quarter of 2019. The $2 \%$ decline in PPNR from the previous quarter reflected lower net interest income and slightly higher operating expenses, partly offset by higher noninterest income.

## CEO Comments

"The continued strength of NBT's pre-provision net revenue is reflected in our third quarter 2020 results," said NBT President and CEO John H. Watt, Jr. "Strong fee-based income, including higher income from our retirement plan administration businesses driven by an acquisition completed in April, and focused expense management were key contributors. As we continue to work closely with our customers through the impacts of the pandemic, we are encouraged that total loan deferrals dropped to $2 \%$ in October from a peak of approximately $15 \%$ in May. Adoption of digital banking services and functionality by our customers continued to accelerate in the third quarter and, with our well-established technology roadmap, we are positioned to scale up."

These statements may be identified by the use of phrases such as "anticipate," "believe," "expect," "forecasts," "projects," "will," "can," "would," "should," "could," "may," or other similar terms. There are a number of factors, many of which are beyond the Company's control that could cause actual results to differ materially from those contemplated by the forward-looking statements. Factors that may cause actual results to differ materially from those contemplated by such forward-looking statements include, among others, the following possibilities: (1) local, regional, national and international economic conditions and the impact they may have on the Company and its customers and the Company's assessment of that impact; (2) changes in the level of nonperforming assets and charge-offs; (3) changes in estimates of future reserve requirements based upon the periodic review thereof under relevant regulatory and accounting requirements; (4) the effects of and changes in trade and monetary and fiscal policies and laws, including the interest rate policies of the Federal Reserve Board ("FRB"); (5) inflation, interest rate, securities market and monetary fluctuations; (6) political instability; (7) acts of war or terrorism; (8) the timely development and acceptance of new products and services and perceived overall value of these products and services by users; (9) changes in consumer spending, borrowings and savings habits; (10) changes in the financial performance and/or condition of the Company's borrowers; (11) technological changes; (12) acquisitions and integration of acquired businesses; (13) the ability to increase market share and control expenses; (14) changes in the competitive environment among financial holding companies; (15) the effect of changes in laws and regulations (including laws and regulations concerning taxes, banking, securities and insurance) with which the Company and its subsidiaries must comply, including those under the Dodd-Frank Act, Economic Growth, Regulatory Relief, Consumer Protection Act of 2018, Coronavirus Aid, Relief and Economic Security Act ("CARES Act"), and regulatory pronouncements around CARES Act; (16) the effect of changes in accounting policies and practices, as may be adopted by the regulatory agencies, as well as the Public Company Accounting Oversight Board, the Financial Accounting Standards Board ("FASB") and other accounting standard setters; (17) changes in the Company's organization, compensation and benefit plans; (18)

Currently, one of the most significant factors that could cause actual outcomes to differ materially from the Company's forward-looking statements is the potential adverse effect of the current COVID-19 pandemic on the financial condition, results of operations, cash flows and performance of the Company, its customers and the global economy and financial markets. The extent to which the COVID-19 pandemic impacts the Company will depend on future developments, which are highly uncertain and cannot be predicted with confidence, including the scope, severity and duration of the pandemic and its impact on the Company's customers and demand for financial services, the actions governments, businesses and individuals take in response to the pandemic, the impact of the COVID-19 pandemic and actions taken in response to the pandemic on global and regional economies, national and local economic activity, and the pace of recovery when the COVID-19 pandemic subsides, among others. You should not place undue reliance on any forward-looking statements, which speak only as of the date made, and you are advised that various factors including, but not limited to, those described above and other factors discussed in the Company's annual and quarterly reports previously filed with the SEC, could affect the Company's financial performance and could cause the Company's actual results or circumstances for future periods to differ materially from those anticipated or projected. Unless required by law, the Company does not undertake, and specifically disclaims any obligations to, publicly release any revisions that may be made to any forward-looking statements to reflect the occurrence of anticipated or unanticipated events or circumstances after the date of such statements.
